ABSTRACT

This book offers a series of activities that can be conducted in the manner that seems most reasonable for a particular class at a particular time. Teachers can select from the chapters those activities that fit their goals and objectives. Chapters include: (1) Land Development; (2) Land Ownership; (3) Agriculture Land Use; (4) Urban Land Use; (5) Patterns of Movement; (6) The Water Cycle; (7) Watershed Management; (8) Effects of Industry on Water; (9) Natural Disaster; (10) Historical Patterns of Environmental Impact; (11) Environmental Awareness; (12) Forest Management; (13) Air Pollution; (14) Solid Waste and Recycling; and (15) Effects of Environmental Change. Each chapter focuses on a different work of literature and includes a summary, science and content related concepts, content related words, activities, and related books and references. An appendix provides answer keys. Contains an index. (CCM)
